

length of the basal joint of antennæ, the non-prominent pronotal angles, the much larger scutellum, the longer corium, &c.

*Elthemus conspicatus*, sp. n.

Head dull ochraceous, eyes black; antennæ with the first joint blackish, remaining joints brownish; pronotum piceous black, the anterior collar and posterior narrow margin ochraceous; scutellum ochraceous, with piceous suffusions, the most prominent being a more or less distinct basal spot; clavus and corium blackish, the costal area more or less ochraceous, the blackish coloration extending across it near apex as an elongate costal spot; cuneus pale ochraceous, its margins darker; membrane fuscous; body beneath and legs ochraceous, a broad lateral fascia to sternum and abdomen black, posterior femora annulated with fuscous near apex: structural characters as in generic diagnosis.

Length 5-5½ mm.

*Hab.* Ceylon; Peradeniya (*Green*).

*Elthemus domitus*, sp. n.

Dull ochraceous (perhaps virescent in life), eyes black; pronotum with the collar and narrow posterior margin a little paler, the latter sometimes inwardly margined with piceous; scutellum and corium pale ochraceous, the clavus and inner area of corium brownish ochraceous; membrane pale fuscous, the basal area piceous; body beneath and legs reddish ochraceous, a sublateral fascia to sternum and sometimes a few discal spots to abdomen piceous; femora longitudinally streaked with pale ochraceous; antennæ ochraceous, the basal joint and apex of second joint black or blackish, first joint longer than head, second joint about three times as long as first; head longitudinally sulcate between the eyes; pronotum finely wrinkled and punctate; clavus and corium thickly finely pilose; membrane considerably passing the abdominal apex; posterior femora apically biannulated with brown.

Length 5-5½ mm.

*Hab.* Ceylon; Peradeniya (*Green*).

*DRUTHMAREUS*, gen. nov.

Head about as long as broad between eyes, centrally longitudinally sulcate, anteriorly broadly angulate, eyes exserted, large, transverse, longly projecting beyond the anterior margin of the pronotum, a little directed backwardly; antennæ with
