

Fig. 14-16. 14. *Neofurius albiceps*, female, lectotype. 15, 16. *Paraguayna paraguayensis*. 15. Habitus. 16. Head and pronotum from above.

Male: Unknown.

Specimens examined. ♀ (herein designated as lectotype), Guadeloupe, Delauney, *Eroticoris albiceps* Lethiery, type, *Halodapus albiceps* Lethierry, syntype, col. R. I. Sci. N. B.; ♀, (hereby designated as paralectotype), same data as for lectotype.

Paraguayna, new genus

Diagnosis. Has the general facies of *Eccritotarsus* Stål, 1860, but differs by having the scutellum totally covered by the hind margin of pronotum. It is closely related to the *Eccritotarsus* group of species in which some have the scutellum partially
